DATE: 06/05/2023 03:02:32 PM

Goodmorning/goodafternoon , im writing on behalf of the fact i would like to bring a various of life threatening events that has occurred during my incarceration, the reason for this is to get some legal assistance i have a case in court right now jamardavis v.flop 1;23-cv-0459.

ive sued the nypd for similiar conduct for violating my rights,& i was on the kaleif browder documentary so ive been on this side of the fence for some time now and im tired of being victimized from the law, ive experienced some of the same things that mr.browder did if not worst and i have all the FACTS to prove this ,DATES,TIMES,NAMES INCIDENT REPORTS EVERYTHING ,

on(december 2? 2018) IN FCI BECKLEY

ive received an incident report for contraband found in somebody else cell, i was in 2 caucasian men cell and the officer (d.law) came into the cell and confronted me in a aggressive manner asking me what am i doing in here this is a whiteboy cell i dont belong in here, i was then searched and sent to the shu for what was found in their cell ,i was the only man to go to the shu i was lied on and racial profiled by this officer which is very unprofessional (on june30th 2021) i was again violated , i was involved in a fight and i know from doing research that the response team had up to a minute to get to that destination but this time nobody came untill minutes later in a emergency somebody could of been killed, moving on i walked away from the fight with my hands up because i didnt want the officers to spray me and beat me up ,they still didnt come so i walked back to the officer and was cuffed as soon as i was cuffed 20 officers came running at me and jumping on me just like ERIC GARNER,i was then brought to the shu where that same night i had a severe asthma attack where i literally almost died , i pressed the buttom for help multiple times barley could breath and the officer told me if i can talk i can breath in a laughing manner i called my mother and told her about this incident on the phone the next day so its onphone records ,

on(jan1 2o22) i was involved in a non physical altercation with my cellmate ,the officer came in my cell while my back was turnt and grabbed me and started to assault me throw me around the cell right before he maced me directly in the ear/eye i put my hands up and the officer still slamed me on the ground , he then took my address book out of my pocket and threw it on the floor therefore somebody could recover all of my information, after i was maced and taken out of the unit i was put in the L.T holding cage to sit and burn for several minutes and then i was taken to the shu holding cage to sit while im burning gasping for air i have chronic asthma on records , not only that the date was switched on my team sheet as if it happen on jan 10 2022 instead of the 1st they tryed to cover it up what they did my family pictures was missing all of my property was missing as well on (feb14 2022) i was in the shu with a inmate who been trying to get psychological help for almost 3 weeks and to no avail did nobody help him the camera can show the cell trying to get everybody attention with copout asking for whatever help he needed, one day he snapped out wrote a copout to the officer they came back cuffed him up took him out the cell and then brought him back i told the officer to get him some help then they cuff me took me to a holding cage and told me i have to fight or fuck this man to leave the cell with him, this is crazy and a VIOLATION on all levels this is madness they knew it was sure to happen because when they put us back in the cell they waitied cause they knew it was going to be a fight instead of fixing the problem they added fuel to it, i was sprayed and thrwon in the holding cage while im again gasping for air asking for my inhaler and to get this mace off of me, i had to sit and the holding cage and almost freezing cold weather with no shoes while im having a asthma attack and i was in that cage for about 10 mins again i have chronic asthma and the same dude that maced me is the same person who let me almost die without getting medical attention i feel like i have a target on my back

(compassione release) when i filed for compassionate release i stated the fact that the nurse told me if i didnt take this shot i would die, she tricked me into taking that needle very unprofessional , after i filed that ,everything that was going go turnt out to bad iwas programing i just completed the brave program ive just obtained my ged and i just completed the drug ed program i had no incident reports untill after that i was doing what i had to do to be a better man in society

on (may 2022) i arrived in USP ALLENWOOD where things got worst

i went to the shu for having a mental breakdown i was telling the officers in the fci i hear voices but they didnt believe me and nor did the officers in allenwood,

(on independence day weekend)i was put on suicide watch

prior to me being put on suicide watch i had stopped eating because it was feces in my food everytime i would try to eat i passed out and was dragged out of the cell , i belivee that same night i went to suicide watch but the LT MILHEM was irate that i wanted to go to suicide watch on this date because it was a holiday and he didnt want to get somebody to watch me he bent my arms up towards my shoulders and then pushed me with max force face first to the wall and almost broke my jaw i didnt eat the entire time i was on suicide watch and the psyche still took me of suciude watch she had no care in the world about my well being and this is suppose to me a mental helath care level 3 yard

i was then put in a observation cell where the officers put inmate after inmate to fight me like im some type of ufc fighter or

TRULINCS 72470054 - DAVIS, JAMAR - Unit: FLP-E-B

something , the officers know their are polilitics in the federal system and certain people your not suppose to be in the cell with, i had one fight with a man for almost 10 mins straight in a observation cell, there was blood everywhere at this time i didnt eat for almost a week going on 2 now , on camera can show all of this, they took the other to medical and just basically threw me right back in the cell with no cleaning supplies no extra set of clothes nothing
i was freezing cold i had to work out at 3 4in the morning just to stay warm, everytime they took somebody out of the cell they will put another one in with me after the fight is over they take another man out and out another one in like this was done before and if it has it needs to be looked into because this can really make a man go crazy
i had my face banged into the wall while in handcuffs because i didnt want to take the inmate in my cell because i was tired of fighting i had mace on my genitals which burnt turnt purple when i decided to take a shower, i had no extra set of clothes so i had no other choice but to wear what i had left after this lifethreatening event
the officer lied on me stating that he seen me fighting false he didnt and he gave me extra sheets clothes etc. which he didnt the dho officer took my phone for 12 months \$405 fine 60 days in the shu and 281 gct days all because i was forced to be in a cell with a inmate i knew i was going to have problems with, i just had a fight with soebody that was 290lb i havent ate for almost 2 weeks i was dizzy and the officer banged my head into the wall i asked for medical attention multiole times i even sat down at recreation and i was told they were going to mace me if i didnt get up
when i got released out of the shu i was on the compound and the officers in the messhall were giving me devilish grins and angry faces whent hey give me my tray at dinner i can prove all of this
ive seen officers give mail out with no id pick up , this is a maximum security prison we have to scan our finger for and swipe our id for everything but our personal mail is being given out with no care in the word
my mail was given out to other peope in the shu and there were so manyh phones on that compund
with you put those 2 together that becomes a hazard for everybodys familys or legal personal information thats dangerous , (THERES SO MUCH MORE,) I HAVE ALOT MORE INCIDENTS THAT I DIDNT MENTION FOR VARIOUS REASONS, AND YES I PLAN TO ELABORATE MORE IN THE NEAR FUTURE I JUST WANT YOU TO GET A PICTURE AND UNDERSTANDING OF THE CASE, I NEED LEGAL HELP , I FEEL LIKE IM A TARGET (I WANT TO SPARK AN INTERNATIONAL OUTCRY SO MY VOICE CAN BE HEARD)

discrimination
harrasment
hateful behavior aimed at one person
racism
misuse of identification
lack of respect for the law
no care for a inmate with mental health needs in a (care level 3 yard)
false information presented on incident reports to make me look as if im the aggressier and false information about what happen (when its on camera)
continued misconduct of repeated violations
retaliation, putting me through the same things kaleif browder went through after i participated in his documentary
infliction of mental health
deprived of medical attention in an emergency
assualt and battery (twice) TORTURED
harrasment is unwelcomed conduct including (verbal, physical, written or verbal
lack of respect for personal confidential information such as(mail pictures address book)
which is security
staged and provoked incidents that put me in life threatening and non severe incidents that caused me to lose good conduct time/privillage
all my communication was taken for a situation i was put in where i was the vicitmized (by officer staff)of cruel and unusual punishment and to cover it up my communication was taken for a year and i had to pay a fine which froze my account so i cant buy stamps to contact the outside world rather (legal or family)

(jan 1 2022)

on my team sheet it states the date is (jan 10) the date was switched to cover up what was done
their were two different remarks that i suppose of had stated which was
my celly was jerking off & i was off my meds i hear voices
(why) did the officer take my address book out of my pocket and throw it on the floor for somebody to recover after i was already handcuffed kids lives were put in danger
on file (medical records) it states i was (cooperative) why was i thrown around in my cell with excessive force before i was maced and even after i was maced i was compliant with my hands up i still was slammed to the floor before(address book) being taken out of my pocket
(why) was i taken to the lieutinet holding cage to sit and burn for multiple mins before being taken to the shu holding cage to sit and burn for more minutes when i have chronic asthma?? before getting washed down with water,
(why) was all of my property missing an the officer is suppose to pacck my personal belongings(cell was suppose to be secured and everything was suppose to be packed) how did some of my pictures and personal protery come up missing?>?
(nov 21 2022) on medical record it states 'no apparent distress' but on camera in the lieutinet holding cage can show different (inmate) denies injury (nothing took place)
a camera view can show me being cornered in etc, (a threat to my saftey) but on (3) seperate occasions i was forced back into danger
(why) was the lieutinet and the unti teamn waiting outside of the unit with a mace can in his hand (lieutinet)
the first time i had a mental breakdown i didnt have to show the nurse my chest and legs (why now) because it was obvious a threat to my saftey, the other inmate i left the unit with didnt have to show his chest and legs and we were side by side (same status) not to mention i was in 'no apparent distress'
(how) did the inmate obtain the shower curtai from the shu (tormenting me)
on may 10 22 (on file may 20 22)
i was charged with disruptive conduct for email abuse after i had a mental breakdown, i have a majpr depressive order (on medical records) instead of helping me with the mental health i was punished and treated as if im not human while doing my shu time for this (incident report) and this is a car level 3 yard that has a building just for mentallity ill inmates, on may 10) i was in quarantine in the shu and i have not been to a&o, i was given the a&o papeer to sign when i got out of the shu
(july 8 2022) releveant conduct to (feb 8 22) how ironice?
a camera view can show my cellmat at the time taken out the cell just like on (feb 8) incident then brought me back to the cell when i declined to cuff up because i didnt want any more problems(have to defenbd myself) i;ve already had fights prior to this

TRULINCS 72470054 - DAVIS, JAMAR - Unit: FLP-E-B

and been assaulted by the lieutenant (while in cuffs) and i didnt eat for approx 2 weeks at this time due to my trays smelling like feces, i was still assaulted(tortured) by this officer,

(what) was the reason you went in that cell and banged my head on the wall while in cuffs?

(why) was there no incident report for all of these fights that happen in this cell(observation cell) camera right in front of it

(why) doesnt mr davis have the proper clothing after the fight when it states on the incident report that he was given extra clothes sheets etc??

(why) did the staff give the other inmate cleaning supplies to clean the blood up from all around the cell but you left mr davis in their days(even after) the staff sprayed mace and there was blood all over(im sure) there was a cell open that he could of been switched to.

(why)was the sanction so harsh for this incident report where/when its obvious this was provoked/staged and if this man has (major depressive disorder)mr davis, (why) isnt this man getting the help he needs (psychology& medical) instead he's being punished it looks to get me that your staff are talking advantage of a mental health inmate in a (care level 3 yard)

(why) was o.c used twice if this officer didnt see them fighting and they both complied with the direct order right away

(why) did it take so long to pull them out the cell after they were in cuffs(when mr davis has chronic asthma)

(why) is davis always the one to get put back in the same cell? its obvious whomever is watching this camera has no care in the world about this mans well being observation means (to watch) (why) is all of these type of incidents taken place under whomever watch??

(feb 8 2022) the officer pulled out my cellmate for whatever reasons and then im pulled out after i refuse to cuff up and take my cellmate back, (what) was the reason you took both inmates out of the cell in the first place?(there was a problem obviously) and if there was a problem as (staff) your suppose to correct it(federal correctional institution)

(why) was their 2 inmates forced to be in the cell? (when theirs a problem) and then when you put them back in the cell together they miracously have a fight(what did the officers tell these inmates to cause this)

then you spray mr davis and throw him in the shu recreation cage outside in the freezing cold with no shoes while he burns for several mins when he is asking for something obviously(camera view) in a distress manner

(why) did it take so long before he was washed down with water(and this is the same officer) that was involved in the night of (july 30) incident when davis pressed the help button multiple times while having a severe asthma attack begging for his inhaler but to no avail did this officer give him help.

(july 30 21)

(why) did it take so long for the team to respond to body alarm? (why) did it take so many officers to take my client down?

(why) after davis walked away with his hands up he wasnt detained? again! he walked away with his hands up walking towards the camera (this would never have happen if the response team would of arrived in a timely manner or if the chaplain would of walked to where davis was and handcuffed because he was obviously(walking away from the problem) literally(why) was davis slammed to the floor twice?(why) is there 10 officers piled on top of mr davis after he was already cuffed and being brought to the shu it was no reason for all of those staff to take him down like that (eric garner)not resisting! (later that night) (why) after my client pressed the help button multiple times (medical emergency) the staff gave him no help he was left to fend for himself and he has chronic asthma for the record, on the phone he tells his mother about what took place that night on the next phone call he made (why is the officer look amused by davis time of need)?

(december late 2022) cell 229

the night before it was time to switch cells the help button was pressed inside the cell i was in due to an altercation that was brought to the staff but instead of fixing the problem the c.o told my cellmate your not moving no cell and then told me to fight or fuck him (again the button was pressed)later that night there was an altercation in the cell obviously, the next day upon moving cells the inmates had bruises and scars (davis) finbger was bleeding with gash officers had to know due to them cuffing him up but to no avail did a medical assesment be done after they were aware of the incident which later resulted to them being split up (move cells)

(why) is the staff throwing mr davis bed and sheets on the floor in the hallway but brings the other inmates bed etc straight in the room(my client is obviously a target) they were aware of the problem before and after and did nothing about it (no medical attention etc

(late dec 2018)

(why) was davis the only one searched in the cell? (why) was davis charged for everything in their cell? (why)was davis sent to the shu if it as not hit cell and the officers caught all of them in their together doing nothing obviously only davis went to the shu for what was in that cell which wasnt his for the record(why) did the incident report get dismissed so quickly if this officer stated i was the one that possesed these things that was found(what) made the officer come in that cell in the first place? was it because it was 2 caucasian men and davis (afriecan american) or was it because mr davis was targeted?

(BACKUP ARGUEMENT)

trays smell like feces during shu stay which caused mr davis not to eat for an extended period of time on camera(suicide watch) till the time he basically left the observation cell 234 that the fights took place in, after a certain amount of meals rather he took the tray or not(if he was being watched) which he was a camera is clearly in front of the cell 234 and its apparent he is not eating (hes lost alot of weight) evident due to his weight ofcourse and he has no shirt on freezing cold so its obvious to whomever was watching the camera and whomever is doing rounds (my client was suppose to be forced feed) not assaulted

TRULINCS 72470054 - DAVIS, JAMAR - Unit: FLP-E-B

and deprived the proper medical attention (why) is it every time Davis enters the chow hall rather than lunch or dinner upon reaching the food line a different pan is brought out to serve Mr. Davis and at dinnertime the officers are doing the exact same thing giving Davis specific trays with devilish looks on their face (a camera view can show this late Nov to be specific with the devilish grins 18, 19, 20, 21) prior to him being sent to the shu (why) is it in (a unit) USP Canaan that my client is the only inmate in the unit with two orange stickers on his door what's that all about? (why) is my client being singled out and put in situations rather than life threatening or non-severe where negative attention is being shined on him (for example) (why) was he the only one able to spend \$360.00 at commissary upon coming out of the shu from these life-threatening incidents (was it to bribe him)? or was it to put attention on him? what makes him so special? (USP Allenwood)

(why) was the fine put back on Mr. Davis account \$705 after it was already cleared for 2 months right before he went to the shu (was this planned?) (why) wasn't my client given medical attention after the officers were aware that there was an altercation between the two of them on (late Dec 22) which led to Mr. Davis' finger being permanently disfigured (USP Allenwood)

(why) is mail being passed out with no ID pick in a maximum security prison which later happens to be phones all over the compound (that is a hazard) what if somebody had the intent to cause another inmate harm? this would make it all possible due to the lack of security from these officers in a (maximum security prison)

(why) are these same incidents taken place more than once (it's obvious my client is being targeted) (July 8) & (Feb 8 22) PRIME EXAMPLE he was assaulted TWICE while in handcuffs on (June 30th by lieutenant & AGAIN on (July 8)

(why) is it that after my client filed for compassionate release with complaints that the staff was feeding them (inmates) box lunch for (breakfast lunch and dinner) and his criminal lawyer called up to the jail asking questions about Mr. Davis well being due to the complaint made about the nurse stating that Davis would die if he did not take this shot (influenza) all of a sudden he starts getting incident reports when he's been programming (completed brave program) (drug ed) and he obtained his (GED) not to mention he has been incident report free for almost 3 years (Dec 14 18) until (April 29 21) which were both 300 series shots, the majority of these incident reports Mr. Davis has caught are 300 series shots if not (297) which are close to 300 (no violence) (no weapons) (no drugs) until these provoke/staged incident reports, (if you look) into these incidents reports

instead of just seeing it as a fight or assault look into the details before stating davis as the aggressor etc, anyway you look at mr davis conduct while incarcerated there is a tremendous change in his behavior compared to the past when he was a youth, jail is a hostile environment nobody perfect but the change is visible has been programming either (brave) or (school) has been enrolled in some type of program or activity to better himself before release if you shall shine the light on on his flaws do the same for his improvement and growth how about we ask (the teachers and the program specialist for an assessment on his behavior, character etc, and even still that gives no right to do the things that these officers did to mr. davis for crisis sake the officer put kids lives in danger when he took this mans address book out of his pocket and threw it on the floor while mr davis was handcuffed on his way to the shu (HATE) it appears to me that these officers are trying to make him (mr davis) relive the same thing mr kaleif browder did for participating in (the documentary) what other explanation fits this behavior this is cruel and unusual punishment to the (MAX) clear as day and in the sight of a camera on numerous occasions which shows the lack of respect these officers have for the LAW and the inmates well being and the victims family which kids are apart of and if the government can sit and defend these hideous act it shows that the (BOP) condones this behavior and is obviously corrupt and has no respect for an inmates (human being) constitutional right. i mean the camera footage, the documentation (incident reports) etc shows a continuous acts of violation the blatant disrespect for the law the obvious retaliation for prior run ins with the law (relevant conduct) suing the nypd, kaleif browder documentary we have dates, times, names scenarios the prove to be clinically correct, the paper trail of medical records this is a lot of evidence not to mention the inmate has a major depressive disorder, chronic asthma since a child and these incidents are a nightmare for somebody with these conditions can you imagine having to go through all of that at one time look at that camera footage on (jul5 > july8), the defendants misleading characterizations... i guess thats why the psyche and the dho did not believe him when he stated he hears voices which later happen to be true (see camera footage on those dates and you'll see somethings wrong (mentally) with mr davis, his mental health was taken lightly (governments response) his motion only sets forth only the most cursory and conclusory allegations of mistreatment with scant details and no support (mr basmelio) obviously did not look into the complaint 'allegations' and if he did that means he condones the fact that children lives were put in danger and he is willing to defend those who are affiliated with such devious acts (the officer) who threw the address book on the floor among other things such as my well being (how) is that shortly after mr davis filed for compassionate release with complaints about this institution he is being put under s.i.s investigation for something as serious as bringing drugs in the institution and when it comes to the light a week or so later, he is released from the shu, if there were any evidence that mr. davis was involved in such why did it take (approx a week or so) to figure it out he had nothing to do with it (was he targeted)? and (why/how) does the property officers misconstrue the fact that mr davis has a full property box with pics etc. and his cellmate has literally nothing (and puts mr davis family pictures) kids etc in somebody else's property box that he never recovered, on a phone record shortly after that you can hear mr davis informing his mother about what happen. (how) can you put an inmate that's been through some real serious (life threatening) incidents at a very young age as a (care level 1) who takes and have been taking medication for anxiety and depression for more than a decade (not to mention) hes labeled as anti social and major depressive disorder rather he shows symptoms or not the psyche is suppose to dig deep to help him with his mental health, and then he goes through a (mental breakdown) on record and to no avail does he get the help he needs (why) because its obvious the psyche does not believe him when he informed the dho about his mental health instead his cry for help was looked down upon as an escape route to get away with the incident report, several of them (incident report) demonstrates that mr davis has become increasingly violent with 3 fights and two assaults (but on 2 separate occasions mr davis had his face banged to a wall while in handcuffs he has not been caught with a weapon stabbed nobody or nothing such as but in several occasions mr davis is put in situations where he asks for help from staff so he wont have to indulge in fights but to no avail does he get help so its inevitable to happen caused him to have to defend himself these incident reports dont show that mr davis is a violent man/individual until the picture whom ever is painting of him (then) he starts to look violent after the extra paint is added (false information) is added, the community was all at mr davis sentencing date so its obvious the community welcomes davis, (how is he still considered young and violent ?? when in actuality mr davis admits to his wrong and take responsibility for his actions rather its a criminal case or an incident report, as you read the governments response it states' in other words that (they are) trying to cover their bop staff officers while shining the light on minor wrongful acts that mr davis has committed while incarcerated (this is unbelievable) (why/how) is davis even more a danger to the community 8.1/2 years later? its obvious that something is being withheld out of the sight to prevent them (bop) from looking as if corrupt, davis states hes become a educated non violent man he has not committed one violent act from the day he was in the federal bureau of prisons until july 30 of 2021 which is 6 years and he has obtained his (ged) with high scores and in the mist of almost dying due to lack of care and being deprived of medical attention in an emergency (that says a lot when you compare this to his past) BIG DIFFERENCE the defendant makes only passing mention of health namely as (asthma) (anxiety) both of which continue to be addressed

TRULINCS 72470054 - DAVIS, JAMAR - Unit: FLP-E-B

appropriately (how) if my client tells who he hears voices and the psyche downplays his mental health due to 'the defendants misleading characterizations' as what the government called it and after that (shortly) he has a mental breakdown and they still give him no help (the proper) which would be "addressed appropriately" if they did or was to (would) you take a vaccine after you were told you will die if you don't take this shot (influenza) which she tricked me into taking) that was unprofessional to tell somebody that, it was a big commotion in front of Davis cell after the shot was given to Davis, (Jan 6 21)

the defendant remained a danger to the community due to his offense conduct and poor institutional adjustment (how) does Mr Davis have poor institutional adjustment if he is currently enrolled in (GED) (brave) and (drug ed) at this time which he later completed all shortly after (not to mention

) he has no weapon no fight or no drugs on his incident report record.. on this date above (Jan 6 21)

the fact that he may sadly remain a danger to the community, this shows that there is something that the BOP knows that makes me a greater danger to the community (all of a sudden) how ironic?

his medical records reflect additional non-compliance relating to his mental health treatment (specifically) when the defendant was prescribed medication for depression (anxiety) "he abused the drug" one occasion taking 30 pills in 5 days "quote on quote but.... the assessment from (Mr. Law) states it was (suspected) and I stated "I got it on Friday and already took half the bottle" it can not be both, something is missing and it's the truth.

if I change my address how can I continue to be a danger to the community that I no longer reside at or plan to especially if nobody knows me in this community I can not be a danger to the community, the arguments raised therein was substantial from dates, times, names, CCTV footage, incident reports (documentation) (how) are these allegations moot? are you by passing the burden of proof before this response was made? or is the government condoning these acts of hate.

(why) after my client completed all of these programs (brave) (drug ed) and obtained his (GED) his points doesn't drop, (why) is this? and he is sent to a USP shortly after completed these programs where is the leniency, if Mr Davis was increasing in violence spat how come he was sanctioned so lightly? around this time (Jan 6 21 > July 30) it's not adding up there is obviously something going on behind the scene (targeting) Mr Davis perhaps. the week of coming back to the unit from the SHU in Unit 2b (day of) asking for a BP.10 and getting it from J. Bastian the counselor (on the first shower) there I had to sign the A.O. paper before I received the incident reports, (why) did the counselor take the BP.10 if he knows that these forms are sent to the regional (northeast) appears that the counselor is taking advantage of Mr Davis being naive to the fact but he's speaking to the counselor about it so therefore you knew and why days later does the BP.10 come back with a response as if it did get mailed out, (CONDITIONS OF CONFINEMENT) I've been at Florence USP for almost a month and wasn't afforded hygiene (neither) from (laundry) or at the store which como sheets was given during lockdown (first) time shoppers are non-existing here, which leaves me to depend on strangers for things such as necessities (hygiene)

D.A. states "facially suspected allegations; my question is? did you complete the fact-finding process or are you going off the base of your perception? there is so much proof to these so-called "allegations" it appears your defending or justifying their actions, (on the July 4th > July 8) incident why did the inmate Mr Davis have to get pulled out of the cell off-camera to conduct this 'medical assessment' (emergency) how many medical emergencies did you conduct the same predecessor?

because if somebody is on the floor obviously you weren't watching the camera because if they was you wouldn't be asking the inmate to get up/and even after.. you still jumped on him and then forced him up before dragging him to the holding cage off-camera to do God knows what to him, we already have proof that lieutenant and officers are assaulting him while in cuffs (TORTURE)

from (December > Feb 2023) if you watch the camera, Mr Davis has sent a massive amount of BP.9s and legal mail out (and the government) states; he is making allegations with scant details, those letters were well detailed just as this burden of proof, which makes them 'moot' is what was stated, there has to be more evidence to these allegations (read) that are being withheld from the public eye or whom ever decides to look into these actual events that are being labeled as 'moot' allegations) I stated I was (assaulted) which I have on 2 separate occasions

mistreated, my life was put in danger, deprived of medical attention, racial profiling (racism)

tormenting acts, drenched with mace and put in cages to sit and burn, why am I the one to always get washed off with water last everytime? on Jan 1 and on Feb 8 this happens (is it a coincidence)? and why is the same officer that basically watched me fight for my life involved in this current situation from July 30 and Feb 8 it's becoming a habit, which is a hazard coming from BOP staff and officials, it does not matter because he is the SHU/staff or not there are the other officers that work the SHU that was not involved in neither acts of hate against Mr Davis,

also, I stated I was (deprived of psychology needs) mental health, watch suicide with video and observation cell

look at incident report #3582964 remarks an assessment that was made and the statement as well about his mental health (was downplayed) as a lie in other words it's clear as day and then after the (mental breakdown) on camera (LT holding cage)

it's obvious this man has some sort of mental dysfunction and after days of not eating the (psyche) still releases pushed him out from suicide watch (without even looking into (Mr Davis) notes while being their (suicide watch) again this appears to be true 1000%, this man was deprived of mental health on separate occasions despite the long history of mental health and taking meds to cope with these issues for an extended period of time (a decade) + not to mention he is labeled under major depressive disorder (in cohorts) the pan gets switched everytime go eat the officers give me specific

trays with angry dvious looks. the lieutinet and the unit team was witing outside the unit before i ws surrounded (then states its not a threat to my saftey) the fact that the officers zre taking one inmate out and putting another inmate in the cell with me right after the fight + assualting mr davis during this life threatening experience(how) did that inmate obtain that shower curtain from the shu(why) did the staff search the cell and take a bag from me and my celly property because mr davis reported a prea on staff, which ive been trying to do so for approx a month at this time , in a situation such as prea the inmate is suppose to get help not punished (why) did this officer hold the mans spoon and toothbrush in fron of davis cell before droppbg it on th floor in a tormenting manner,(why) was a tran sexulak man waiting in thaat specific area for so long untill davis walks out of the chowhall (the day before going to the shu nov21) after getting a tray from an officer with a angry scowl on his face, the transexual man waits untill mr davis walks out of the chowhall and cut right in front of him asf this was planned , that is an unauthorized area, strictly for officers , inmates only walk through the metal detctor not stand around,(during nov 18>21) fter count these incidents take place (unit/chowhall)

(why) is it on medical file every incident documented it states mr davis was/is cooperative and on the dho reports he always admits to his wrong doings but on file it states davis is non.compliant ad is more of a danger to the community due to his spate of increasing violence(conduct while in prison) months prior to this mr davis completed (brave,druged, and obtained his ged) but custody points were never even considered being dropped but instead he was forced to be in a cell where their was a problem and told to fight or fuck which later resulted to him being sent to a usp

(rehabilitated facts!)

- have not received a (100) series incident report
- has been incident report free from (dec 2018 > april 29 21)
- obtained his ged
- completed the brave program
- completed drug ed

enrolled in forklift (which he didnt finish)

- has ot received any incident report pertaining (drugs) whe comes from a long history of drug abuse
- has the most hours in (brave) history(didnt stop trying untill he got it right and completed it)
- was currently waiting to be a tutor for a teacher (mr ugh)

-from the past mr davis conduct has changed from then till now if you compare the two it shows a substantial amount of eveidence to back up these points made to show that davis has rehabilitated(not perfect) but progress is shown even after mr davis has experieced life threatening incidents he still has not relapse to his old young and vilent ways(which) shows a tremendous amount of growth because after a situation that mr davis has brought to the light about these BOP OFFICERS/STAFF these type of incidents can make a man relapse to his old ways unless thats not the man he is no more CHANGE! nothing happens over night an progress is defintely shown, during his incarceration i mean if he has not grown for the better(rehabilitated) even if it was a little bit how was he able to stay in a (fci) for almost 5 years with tose type of custody points if he is so ;dangerous' without receiving an mass amount of incident reports that were considered (serious) if he had not rehabilitaed with points almost at (40) upon arriving at(fci beckley) he would of been sent to the usp for his non compliant behavior now this shiws that he was able to stay on the right track (postive) enought to get his points dropped down from a (38) to a (25) during his incarceration, this is a tremendous drop for somebody who has NOT rehabilitated, the (defendant disciplinary records however indicate that he has persisitently violated bop rules (resulting) in numerous run ins with the staff(even if) this is true (THAT DOES NOT) give the staff authorization to do what they did to mr davis (on multiple occasion) which appears to be continous acts of hate such as assualt, degrading behavior from staff, deprived of medical atteention in an emergency ETC.(on june 29th we took a shower the on july 3rd we took another shower

its suppose to be every 72 hours, (most recent) usp florence (see bp8) , this narrows down the range of discrection in this case how can this (defendant) arue/contest any of the facts set before us,-a court is not required to reduce a sentence on compassionate release under &3582 was drafted using the word may not mush and(should) b denied because he has failed to exhaust his adminstrative remedies also has not established that their is compelling reasons for this release(which he is asking in his case (to not be misconstued immediate release under compassionate release and part of the demands of the case mentioned prior davis v. federal bureau of prisons amongs 100 million for serious "allegations' that are actual events such as (assault & battery) (deprived of medical attention) ini an emergency....see case details mentioned ^

(on the first attempt) compassionate release one of the factors mentioned i was exhausting my remedies. fo somebody with a long history of diagnosis (known) and (unknown) due to the lack of mental health treatment (can) get a bit i would say confusing for one/whpm has these circumstances (the cruel and unusual punbishment davis received on several occasions,

(LAST IMPORTANT NOTES PERTAINING CASE)

after these circumstances i believe this sums up the (burden of proof) such as extradionary and compeeling reasons as well the

courts legal analysis has to have a different perspective after looking into (fact finding) which happens to result in the (Burden of proof) which presents (dates, times names cccfootage documents etc) facts are facts and prior behavior or acts of violence committed in the past should not be the only subject we focus on if there is a substantial amount of proof that shows extraordinary and compelling reasons that not only warrants a compassionate release or modification of a sentence which ever one that the court finds suitable for this case set before us but when rights are being violated continuously there has to be some justification on for the receiver of this degradation etc. from these (bop officers) something needs to be done (not should) this behavior is unacceptable especially coming from federal officers on all levels such as LIEUTINETS/officers etc and if the plaintiff is still considered dangerous after he has been abused, assaulted, harassed their has to be some kind of hidden agenda (vendetta) that these officers have against mr davis for whatever reasons and (again) that still gives no right under law for these such endeavors to take place (time after time) again and again (where) is the respect for the law that is suppose to reflect the seriousness for these acts of (HATE) a crime is a crime no matter who commits it and if the plaintiff has to pay with time for whatever he did (to show for respect for the law) BLACK LIVES MATTER IN JAIL TO, then these same precedents need to be applied (justice need to be served) this discredits the testimony of against me from these officers (which is false information) which was mentioned prior ^

(the defendant) government are pulling tricks out of the bag in desperate measure to prevent making a mockery out of the bop, the technicalities need to be taken care of immediately if not the motion of a speedy trial is sure to be imposed to make sure this happens (BLACK LIVES MATTER IN JAIL TO) its obvious the officer had ill intentions when he took my address book out of my pocket and threw it on the floor. (COMPLIANCE)

it shows that mr davis is compliant when it comes to his mental health and medication (everyday/month) faithfully -what made (whomever) write incident report (297) after davis had a mental breakdown, is it due to him making a disturbance with his conditions (mental health) or was it out of spite to take advantage of him while going through his mental health issues, why would you look at his tru-lincs and write him a incident report for such and then later physically abuse him while doing his shu time for that incident report, there was (false information) again on #3530527 incident report

chaplin states he put me against the wall to regain control and then i attempt to elbow him in the face...(false) there was no wall where that incident took place and a (camera view) ccan show that the chaplin (did not) do what he stated and (why) did the chaplain not cuff him up when he walked away from the fight and why did it take so long for the response team to arrive? davis had his hands up (compliant) as he walks away from the fight (approximately) 30 feet away from where the fight started, incident report #3038324 was switched to a (297a) from a (397) a 3 way was made but nobody picked up (how) is that a 297 if nobody answered the phone there were no 3rd party on the phone and then the counselor states to me (davis) you got somebody upset with whatever you did which was confusing at the time but as i look back now i fully understand what she meant (i am a TARGET), which was the only time i lost GCT until the

#3530527 incident report which i mentioned prior (see details) oct 17 2017 > august 9 2021) almost four years) and they say mr davis is not rehabilitated. mr davis would still have majority of his gct if it was not for these staged and cruel and unusual punishment from these officers/lieutinets and dho officers.

(conditions of confinement)

- i had no other choice but to take a shower with no soap (for a month)

-i had to wash/rinse my mouth with water (no toothpaste for a month)

-i was not afforded any product of deodorant but was given the opportunity to buy stamps and otc forms such as vitamins etc

-hygiene becomes problematic for an individual when he starts to smell especially when your on lockdown in a cell for days without a shower and it makes it even worst when we only take 2 showers a week (when in fact) it suppose to be every 72 hours on (june 29th) then again on (july 3rd), the conditions are unusual and cruel even if not intended, on all aspects of whom constitutional rights and by law hygiene such as soap toothpaste etc are suppose to be afforded to an inmate upon arriving to a facility (especially) when 1st time shoppers are non existing (in addition) the defendant is no longer even housed at the facility where the 'alleged' mistreatment took place but in actuality its still taken place here at usp florence (RATHER) intended or not its still cruel and unusual punishment, "the defendant was most likely moved to a high security prison to prevent him from harming other inmates or staff (which he never did) but was harmed by officers/lieutinet 2x, the ytransfer also removes him from the environments that he claims again with no support, how is that when letters that was sent to (500 pearl street) december 12 & 24 which has information about what took place in vivid detail that if it was looked into, it would show that these are actual events and (again) this mistreatment are still taken place see (bp8)usp florence just not with intentions to do so (as the last prisons) he was housed in

(what) did mr davis do in-order for him to be labeled as a person who needs to be in a high security prison because he may hurt another inmate/staff, is it because he may want to retaliate for the assaults and mistreatments that he was forced to endure (go though) or is there substantial evidence showing this? (why) would davis want to do something to a staff? it has to be a reason these actions are being suspected especially when he has never assaulted or caused physical harm to one (a staff) (is it speculations?) cant be there is a reason and that is because davis had been mistreated assaulted (mistreated) on so many different occasions by (the staff) that they are expecting retaliation but it is clear that davis has no intentions on acting off impulse (violently) to anybody unless its defending himself. which got him sent to a high usp to protect a staff/inmate from further violence (in usp allenwood) last prison housed mr davis was assaulted by 2 staff in usp allenwood which happens too be officer/lieutinet on july 7 there was a whole lot of confusion over the staff not giving out hygiene, it took all day of confusion slot

holding in order for us to get hygiene supplies (2 bottles of soap and 1 toothpaste and toothbrush)
but was not afforded a shower (on shower day) this is not a matter of right or wrong, the law states we as inmates are supposed
to get a shower every 72 hours (today is the 7th of July) for the record (rights) are being violated today is the 31st day I've
been in USP Florence this is madness UNDER (conditions of confinement)
would you consider this a form of (mistreatment) again rather intended or not these are extraordinary and compelling reasons for

cruel and unusual behavior is taking place(why) is this happening so frequently? is this a coincidence that this type of activity is going on?(no showers) (no hygiene) for more than a month but afforded the chance to buy stamps and otc items/? was this planned am i being targeted? i find it kind of ironic tht im sent somewhere were these type of activities are taken place.(how) can you argue with these facts this is a federal usp (where) is the order? are we not human beings or better yet am i not a human being(BLACK LIVES MATTER IN JAIL TO) no (ALL LIVES MATTER IN JAIL TO)

today on (july 7) i requested and filed a bp-8 for these cruel and unusual punishments from these staff officials that work here at usp florence a camera footage can show all of this madness going on due to us (inmates) not being afforded what we have the right to get and have , while all of this is taken place i ws going through flashbacks of last year endeavors from usp allenwood the torture and pain i went through, i wrote psych but got a bland response check (electrical copout) this is alot to deal with at one time(why) do i have to keep going through these type of events , i am menatally scarred from all of this sick behavior that im receiveing from the law rather its police officers lieutinets or correctional officers, its to much and the goverment is willing to defend these actual events as if its not happening , this is bizzare behavior coming from the law and also a hazard to my mental health and well being, so now that we was given hygeine i guess it makes it right that we are not afforded a shower 'these allegations', this is what the goverment calls the (BURDEN OF PROOF) IT QUESTIONS THE POSTION OF POWER that whomever is in control has (JUSTICE NEEDS TO BE SERVED)

if you look into the complaints that was made about staff(why) is it that these "allegations" are not being looked into before responding to the motion ? their constantly stating these are moot allegations but their is alot of proof to lookat to determind rather these allegations are moot, but instead its 'these allegations" are being bypassed as if its nothing to look into if the federal system as a whole is protecting these very serious (again) so called 'allegations' who is mr davis or whomever suppose to turn to for help if thier (the law) condoning it and trying to cover for their mistakes (this is a very serious matter) on the night davis went to the shu (nov 21) why in the lieutinet holding cage he had to take his shoes off? and why did the officer take davis personal property(paper) n glasses case if thats something hes entitled to have while in the shu? this is constant violations on so many different levels..

(NAMES AND ROLES)

the fine was cleared when i left the shu , they let me go \$360 when the limit is 180.00 ,and then prior to me going to the shu the fine was put back which leaves me with no communication to let my family know what happen to me

(WARDEN ALLENWOOD) letting me spend \$360.00 in commissary after i was released from the shu early , was it because (warden) knew what happen to me and try to bribe me to not pursue with the right steps to handle this type of situation or was it to put more negative attention on me 'why is he able to spend 360 and were not' what was the logic in that ? and for taking my copout about prea and other stuff that happen to me (mistreatment) but to no avail did the warden help me,

(SHU/SISallenwoodGARRISON) for trying to force me back out into a life threatening incident that could of possibly got me killed or seriously injured (when the camera shows clearly that their is obviously a danger to my well being)

(SHU/STAFF) for not wearing name tags on display so i wont know their name ,(tall always wears a hat)pRTICIPATED AND RESTRAINING ME WHILE HOLDING MY HEAD WITH I.t PACKER AND OTHER STAFF (MEDICAL) so the nurse can take my blood and push multiple needles in my arm while being restraint (ms hernandez) was the nurse who shot me with multiple different needles after i passed out and they jumped on me

(psychology) for taking me off suicide watch while going through mental health issues downgrading my mental health, i didn eat the entire time i was on suicide watch and the psyche still forced me t leave suicide watch because they didnt wan to have nobody watch me i already got my face smashed into the wall for feeling suicidal(this is a care level 3 yard) for the record (FCI/SHUSTAFF) property officer around on date (jan 10>20) for placing my family pictures ,kids,mother ,father etc in another mans propertybox when he knew that these were my pictures, i had a full box and i made him go through the pictures with me so im more than certain tha he was aware of whom pictures they were, i find it hard to belive that he did not know those werre my pictures , this was another act of (HATE) put my family pictures in another mans property which i never received who knows who has my familys pictures. (a camera view can show all of this)

(FCI/chaplain)obviously the staff either knew this whas goig to take place or they seen it was me (davis) and didnt run to secure the area(situation) i walked away and was still lied on (incident report) see more details ^

(dho/bittenbender) the fact that mr bittenbender took the remaining of mr davis \$account and phone for a year after what was done to him shows that he was trying to cover up for their actions while punishing me to the max, for as long as possible and then shortly after that he no longer does dho in usp allnwood, is it a coincidence>?? (NOTES)(notes)

i was not given an incident report for refusing a direct order on #3649195 but insteadhad my face banged into a wall and (why) did the c.o spray tice if we didnt refuse the direct order? you only spray when the inmates refuse to comply with the direct order to stop fighting then you take furhter steps to stop the fight (it doesnt make sense) for the record i made no complaints about usp canaan except the fact that oblinsky (shu/staff) told me maybe we dont like you when i asked why am i contionusly getting skipped on the law library (on camera) you can see me when its time to turn in law library slips i do everyweekend and the staf always go around me or start far away where they wont make it to my cell on time and they grab the same people everyweek when its inmates like me putting in slips to go every chance they have law library(repeated acts of violation) ive sent multiple letters special mail(in big envelopes) while in usp canaan shu to the (counsel of the bop) my lawyer (mark demarco) my civil lawyer(john r depola) and to bth court houses(robert c byrd) and (william j nealon) about everything that happen to me in vivid details(dates times names camera footage)etc

(FEB13) pt is deemed (carelevel 1) for mental health 'i have reviewed this ptients avaiable medical file for recent lab test and encounters and found this treatment to be clinically indicated at this point (what makes a care level 1,2,3)? what is the quateria ?? how does mr davis fall under (carelevel 1) with a long history of mental health ,(after) a psyche states this ^ but prior to this review on (july 1>july10) from suicide watch to the observation cell 234 d 200 range , experiencing mental health related issues (hearing voices etc) while being harrassed,assualted ,tortured and deprived of medical/psychology attention, why is it that every incident mr davis was involved in states he was (ccooperative) when refered to his (behavior) which means compliant(how) can a major depressive order inmate be a (carelevel 1) and he also has explosiv disorder isnt these two seperate diagnosis(moods) which can cause confusion and if a inmate can be depressive and then explosive one minute wouldnt you think that this (inamte) need to be cared for on a more microscopic level?

(on march28 23) states on medical file that ' this is concerning for possible rticial avulsion fracture fragment due to the lenth of tim (4) months before it was actually examed(usp allenwood) refused to get davis medical attention even after they were aware f he incident and scar, due to them (bop staff) having to cuff me up the next dy to switch cells ,(read more mentined prior^) for

(bop-10) incident report # 3649195

Jamar Davis 72470054 (extension page 1)

I am requesting administrative remedy due to the fact , this will be the 3rd rettime ive filed this specific complaint (bp-10) the first (2) DID NOT reach its destination for whatever reasons, i do not have the extension (remark) paper from the (bp-9) due to sending it to thus address which apparently never got their, i was in the shu when i sent the (bp-10) mail out , i receieved the bp 10 on (march 18) in usp cananna i sent the mail out that week, ive been on transfer status(either waiting or transferring) so this could be the reason i havent receieved the notice pertaining my complaint(bp-10), this incident report that i speak of has cost resulted to me losing (240) non vested gct days , (41)gct days ,(12) months loss of phone usage and a hefty fine of \$405.00 , i was in cell 234 d200 range in usp allenwood their was a camera in front of this cell (234) observation, i just returned from suicide watch (for the record) i was assaulted by lieutenant (while in cuffs) my arms was bent up in the cuffs and then my my face was smashed into the wall on my way to suicide watch because the lieutenant didnt want to get an officer to watch me on independence day weekend,(now) while i was inn cell 234 i dindt eat for more than a week (even while on suicide watch) my tray smelt like feces, which caused me not to eat for an extended period of time,all of my communications were taken shortly after the damage was done so i cant contact the outside world to let them know what happen to me. in a time frame (june 30th to july8-july10) i was assaulted (twice while in handcuffs) the 2nd time was due to the fact i refused to cuff up because i didnt want to have to fight nomore ive been in (2) fights prior to this while on observation and DID NOT receive any proper medical attention or an incident report and this is in a observation cell (a camera can show this) and after every fight the shu/staff would throw me right back in that same cell and leave me cuff up and throw another inmate in the cell to fight me and after that fight , this is when i refused to take my cellmate back, i havent eaten for days, i got assaulted by and lieutenant ive had 2 fights and then i was assaulted again (while in handcuffs)and then had another fight. i had to stay in that same cell for days with no proper clothing no cleaning supplies nothing but in the incident report. it states that i was given everything new (FALSE) a camera can show all of this and after all of this the (DHO) sanctioned me with harsh intentions , which i didnt indterstand i was the vicitm and i was charged as if i tried to kill somebody, its obviously the (dho) did not review that camera because if he did maybe the sanction would be different, all of my communication was taken right after,as if their trying to cover up what theyve done to me and now my mail isnt reaching its destination this is madness i need professional help at this point i need this to be overlooked and reviewed therefore the right thing can be done and i can be sanctioned based on the facts ive provide all i wish is for my (281) nonvested and GCT days back) and i wish to have my (\$405.00 restored) this was extremly harsh can you please look into this matter RESPECTFULLY, my rights were violated this is a case of (CRUEL AND UNUSUAL PUNISHMENT) to the (MAX) i am also pursuing a civil case against federal bureau of prisons for this and relevant conduct from other staff.. thank you for you time sorry for the inconvienece (jamar davis) IF NEED BE I CAN ELABORATE ON A BP-11 WITH VIVID DETAILS , (THE CAMERA VIEW CAN SHOW ALL OF THIS) burden of proof

this is a case of cruel and unusual punishment and a hate crime were not only was i punished but was also assaulted twice , deprived of medical attention in a emergency, lied on (false information) was added to the incident report, i was put back in forth in the same room/cell where their was blood all over the cell with no cleaning supplies , i did not have the proper clothing, my trays smelt like feces (i wasnt eating due to that) during the time frame all of this was taken place after i was maced and cuffed the officer sat their and watched me cough for approx 5 mins before taking me out of the cell (i have chronice asthma) the officer sprayed the o.c twice for no reason he did not see us fighting and when he told us to cuff up we did, (we did not) receieve a incident report for refusing a direct order and this officer still sprayed twice as if their was some sort of resisiting going on(their is a camera in fron of this cell) and after all of this that i was forced to endure the (DHO) sanctioned me to this harsh, unusual punishment for a 201 incident report (fight) which was (240) nonvested gct (41) gct days ,(12 month) loss of phone usage and a heft fine of \$405.00(review the camera footage from(june 30th > july 8th.10th) my rights were violated to the max and their should be some justification for their actions (read more) after i was maced , i was thrown back in that same cell with blood all over the walls etc, with mace in the air no exchange of clothes (NOTHING) this is bizzare and if anybody can defend these acts of hate, i will pursue to the next level of understanding thank you for your time sorry for the inconvinence
